

Chaum

LIFE CENTER | The Power to Age Beautifully CHAUM

Introduction:

Introduction to Chaum

Better health, everlasting beauty

The Anti-Aging Life Center, **Chaum**

Comprehensive World-class Healthcare Model

Full range of medicine including Eastern, Western, and Gene analysis ("Triple Health System").

Patients receive **personalized care** with a **one-to-one** assignment of **doctor and trainer** During annual checkups.

Utilization of **database** across various services (including medical checkup, in-house physicians, fitness program, and food therapy design).

New Anti-Aging Management System

12 different senility test categories to assess function of the brain, cells, immune system, capillary flow, autonomic nervous system, and hormones. **Advanced gene analysis test** based on genetic mapping to understand the **aging process** and **potential health risks**. **Personalized program** supported by a team of doctors, health consultants, therapists, nutritionists and trainers.

World Class Doctor's Group

Chaum **limits** the number of daily check-ups to **20 patients per day** for **intensive services**. In this way, 40 professional doctors work to provide a **highly integrated medical system**.

Chaum also offers **transfer services** within its **network** of the most renowned physicians and medical professionals **in Korea and the United States**.

State-of-the-art Medical equipments & Systems

Modern and high-tech equipment: MRI, Ultra-low radiation CT, Ultrasound, Echocardiography, exablate 200, and more.

Cell medical exam system includes body composition and condition tests all within the comfort of the patient's own space.

Radiation warning system to monitor the body's exposure to radiation. Innovative & non-invasive equipment for **body slimming and facial treatments**.

New Bio-care Technology

Stem cell centrifuge & storage through one of a kind personalized **stem cell banking program**.

Advanced sports injury rehabilitation equipment

(the only one in Korea)
