

**INJE UNIVERSITY
HAEUNDAE PAIK HOSPITAL**

INJE University Haeundae Paik Hospital

Introduction:

Inje University Paik Hospital has opened its **family hospitals** in **Busan, Sangye, Ilsan and Donglae**, since opening to the doors to **Seoul Paik Hospital in 1941** and is positioned as a leading proprietary hospital in Korea.

Inje University Paik Hospital is **first class** in all fields such as medical treatment, education, study etc. as a world class medical institution leading the medical community of Korea for the 21st century.

By providing high-quality medical service equipped with state-of-the-art medical equipment, combined with an excellent medical team based on the historical performance of 80 years of Paik Hospital, **Inje University Haeundae Paik Hospital** will be **the best hospital in southeastern Korea**, as will expand through Asia and the World.

Based on the foundation spirit of '**Save the world with benevolent medical acts, benevolence and virtue**', Haeundae Paik Hospital will provide medical services for all people who live in **Busan, Ulsan** as well as in **Gyeongnam** and **Gyeongbuk** provinces.

The patients around this area don't need to go to Seoul to receive better medical service at an additional cost. **Haeundae**, located in **Busan**, has the best climate and most comfortable living conditions in Korea in addition to having a rich tourist infrastructure, including beautiful beaches. We intend to transform Haeundae Paik Hospital into a **medical hub of Northeast Asia**, focusing on the **medical tourism industry to invite foreign patients**. We will do our best to fulfill your expectations, **Haeundae Paik Hospital**.

Health Screening Programs

Bronze

Male

Common Test

Basic Tests

Physical measurement (height, weight, waist size, body composition analysis, blood pressure), Hearing test, Ophthalmologic exam (vision, intraocular pressure, funduscopy, color signals), Urine analysis, Stool test

Cardiopulmonary Function Test

Pulmonary Function Test (PFT), Chest X-ray, Electrocardiography (EKG)

Digestive Tests

Gastroscopy or Upper gastrointestinal series (UGI)

Blood Tests

Complete blood count (CBC), Blood typing, Liver function test, Lipid battery, Diabetes, Kidney Function, Pancreas enzymes, Electrolytes, Gout, Thyroid function test (TFT), Hepatitis (A, B, C), Rheumatoid factor, Inflammatory markers, Male hormones, Vitamin D, Syphilis, AIDS, Tumor markers (Liver, Colon, Pancreas, Prostate)

Result Counseling

Result counseling of physical checkup and consultation (if necessary)

Basic

Common Test + Abdominal Ultrasonography **500,000 won**

Plus

Common Test + Abd & Pelvis CT **570,000 won**

Bronze

Female

Common Test

Basic Tests

Physical measurement (height, weight, waist size, body composition analysis, blood pressure), Hearing test, Ophthalmologic exam (vision, intraocular pressure, funduscopy, color signals), Urine analysis, Stool test

Cardiopulmonary Function Test

Pulmonary Function Test (PFT), Chest X-ray, Electrocardiography (EKG)

Digestive Tests

Gynecology Tests

Gynecologic examination, Liquid based pap smear

Breast examination

Mammography

Osteoporosis Tests

Bone Mineral Density (BMD) test

Result Counseling

Result Counseling of physical checkup and consultation (if necessary)

Basic

Common Test + Abdominal Ultrasonography **550,000 won**

Plus

Common Test + Abd & Pelvis CT = **620,000 won**

Close physical checkup by disease

Brain

As a program for preventing from cerebral infarction, cerebrovascular disease it is for early checkup and prevention in case you have family history of cerebral diseases or risk factors of cerebral infarction (hypertension, diabetes, hyperlipidemia).

Item

- **Bronze** + Brain MRI + MRA / Carotid Ultrasonography / Arteriosclerosis Test
-

Time

- 3 hours and 30 minutes
-

Cost

- Male **1,450,000 KRW**
 - Female **1,500,000 KRW**
-

Cardiopulmonary Function

It is for early diagnosis and prevention by examine pulmonary disease and cardiac disease according to smoking.

Item

- **Bronze** + Chest CT / Arteriosclerosis Test / Sputum Cytology / Specific blood tests (4 items)
※**Option**: Cardiac CT or Echocardiography
-

Time

- 3 hours and 30 minutes ~ 4 hours
-

Cost

- Male: **1,030,000 KRW**
 - Female: **1,080,000 KRW**
-

Digestive System

This program is for early diagnosis and prevention of most common digestive system problems and specially recommended in case you have an immediate family history of a stomach or colorectal cancer.

Item

- **Bronze** + Abdomen & Pelvic CT / Conscious sedation Gastroscopy · Conscious sedation Colonoscopy
-

Time

- 3 hours and 30 minutes
-

Cost

- Male **830,000 KRW**
 - Female **880,000 KRW**
-

Specialized Physical CheckUp

Male

It is to examine the diseases such as pulmonary cancer, thyroid cancer, arteriosclerosis and the prostate disease which are mostly caused in **male**.

Item

Best Bronze + Chest CT / Abdomen & Pelvis CT / Prostate Ultrasonography / Thyroid Ultrasonography / Conscious sedation Gastroscopy · Conscious sedation Colonoscopy / Arteriosclerosis Test / Blood test (Homocysteine) / Urine cytology / Biological Age measurement

Noble Bronze + Brain MRA / Carotid Ultrasonography / Prostate Ultrasonography / Thyroid Ultrasonography / Arteriosclerosis Test / Blood test (Homocystein) / Urine cytology / Biological Age measurement

※ **Optional Test (Choose 3 items)**: Chest CT / Abdomen & Pelvis CT / Cardiac CT / Echocardiography / Conscious sedation Gastroscopy · Conscious sedation Colonoscopy

Time

3 hours

Cost

Best: 1,450,000 KRW

Noble: 1,950,000 KRW

Female

It is to examine the diseases such as breast cancer, thyroid cancer, cervical cancer and ovarian cancer which are mostly caused in **female**.

Item

Best Bronze + Chest CT / Abdomen & Pelvis CT / Breast Ultrasonography / Thyroid Ultrasonography / Transvaginal Sonography (TVS) / Conscious sedation Gastroscopy · Conscious sedation Colonoscopy / Human papillomavirus (HPV) / Female Hormones / Osteocalcin / Biological Age measurement

Noble Bronze + Brain MRA / Breast Ultrasonography / Thyroid Ultrasonography / Transvaginal Ultrasonography / Human papillomavirus (HPV) / **Female Hormones** / Osteocalcin / Biological Age measurement

✕ **Optional Test (Choose 3 items):** Chest CT / Abdomen & Pelvis CT / Cardiac CT / Echocardiography / Conscious sedation Gastroscopy · Conscious sedation Colonoscopy

Time

4 hours

Cost

Best: 1,600,000 KRW

Noble: 1,980,000 KRW

Unmarried Women

This program is composed of the suitable examination items for **unmarried women**.

Item

A **Bronze** + Breast Ultrasonography / Transvaginal Sonography (TVS)
/ Rubella antibody / Varicella antibody

※ Gynecology test, mammography and osteoporosis tests form the **basic program** (**Bronze**) are excluded for this program.

B **Bronze** + Breast Ultrasonography

※ Mammography and osteoporosis tests form the **basic program** (**Bronze**) are excluded for this program.

Time

4 hours

Cost

A: **660,000 KRW**

B: **560,000 KRW**

Teenagers

This program is composed of the suitable examination items for **unmarried women**.

Item

- **Bronze** (Except a portion of the items) + **Growth plate test** / Allergy test / Stress test / Varicella antibody /
 - **Bronze** (Except a portion of the items) + Rubella antibody(female) / **Depression test**
✘ Rheumatoid factor, Hepatitis C antibody, AIDS, syphilis, tumor markers, male hormones, vitamin D, gastroscopy, BMD test, gynecology test, abdominal x-ray, mammography (**Bronze**) are **excluded** for this program.
-

Time

- 2 hours
-

Cost

- **Male** **440,000 KRW**
 - **Female** **460,000 KRW**
-

Item

Male PET-CT / Brain MRI & MRA + 3D Neck MRA / Chest CT / Conscious sedation Gastroscopy · Conscious sedation Colonoscopy / Prostate Ultrasonography / Thyroid Ultrasonography / Arteriosclerosis test / Specific blood tests (4 items) / Biological Age measurement / Osteoporosis test Prostate medical exam, Male sexuality medical exam

※ Option: **Cardiac CT or Echocardiography**

Female PET-CT / Brain MRI & MRA + 3D Neck MRA / Chest CT / Conscious sedation Gastroscopy · Conscious sedation Colonoscopy / Breast Ultrasonography / Thyroid Ultrasonography / Transvaginal Sonography (TVS) / Human papillomavirus (HPV) / Female Hormones / Osteocalcin / Biological Age measurement /

※ Option: **Cardiac CT or Echocardiography**

Time

5 hours

Cost

Male **2,600,000 KRW**

Female **2,700,000 KRW**

Process

In order to proceed with the examination, you must visit the hospital **from 8:00 a.m. to 11:30 a.m.** and **from 1:30 p.m. to 4:00 p.m.** on weekdays.

This is a professional program.

Through detailed examinations such as MRI and CT and ultrasound examinations, we perform detailed examinations for male and female-related diseases to precisely examine major cancers and diseases by organ. It is a health checkup program suitable for **busy modern people** who want a thorough examination because it performs a wide range of detailed examinations **quickly and accurately in a short time.**

morning test

Step 1

Basic Comprehensive Examination

Step 2

Chest CT / Abdominal & Pelvic CT

Step 3

Brain MRI & MRA + 3D Neck MRA

Step 4

Cardiac CT or echocardiography & exercise electrocardiogram

Step 5

Ultrasound (**prostate (male)**, **breast (female)**, **thyroid**)

Step 6

Sleep gastroscopy and colonoscopy

Step 7

End of final inspection (**12:00~13:00**)

Step 8

Home after meal

VIP in-clinic physical check-up

Male VIP Accommodation Precision Health Checkup

Item

Basic Comprehensive Health Checkup + Chest CT / Abdominal & Pelvic CT / Carotid Ultrasound / **Prostate** Ultrasound / **Thyroid** Ultrasound / Bone Density Test / Sleep Gastrointestinal Endoscopy / Hair Mineral Test / Allergy Test / Arterial Vascular Elasticity / Autonomic Nerve Balance Test / Sputum Cancer Cell / Urine cytology / Special blood test (**4 types**) / **Male** sexual life and menopause questionnaire / NK cell activity

Premium (3 days 2 nights) PET-CT / Brain MRI & MRA + 3D Neck MRA / Lumbar-Thorax-Cervical MRI / Cardiac CT / Echocardiography & (Echocardiography)

Special (2 Days 1 Night) PET-CT / Brain MRI & MRA + 3D Neck MRA
✘ **Optional examination:** Select 1 among cardiac CT or echocardiography & exercise stress electrocardiogram

Classic (2 Days 1 Night)

Brain MRI & MRA + 3D Neck MRA

※ **Selective examination 1:** Choose 1 between cervical spine and lumbar MRI

※ **Optional examination 1:** Select 1 among cervical spine and lumbar spine MRI

※ **Optional test 2:** Select 1 among cardiac **CT** or echocardiography & exercise stress electrocardiogram

Cost

Premium: 6,700,000 KRW

Special: 5,100,000 KRW

Classic: 4,500,000 KRW

Process

VIP Accommodation Precision Health Checkup

You will be accommodated in a **VIP room** equipped with the finest facilities.

When a couple (family) check-up, they stay in the same room, which reduces costs.

A professional **coordinator (nurse)** will guide you through all examinations **1:1**.

VIP Accommodation Precision Health Checkup proceeds can be provided separately upon your request:

✘ The schedule may vary depending on the type of (optional) examination.

✘ Hair mineral ANALYSIS is available without getting a permanent or dyeing within 3 weeks.

PET-CT (Positron Emission Tomography)

- It is the latest imaging technique which is after injection of mixed radiopharmaceutical and glycoside derivative, rest for spread well whole-body during 40~50 minutes and then view by **PET-CT** equipment. (inspection-time: about half past the hour ~ 2 hours)

MRI (Magnetic Resonance Imaging)

- This is inspection for the existence of the disease through high frequency current as lying down powerful **magnetic** equipment. (inspection-time: about 20~30 minutes)

CT (Computed Tomography)

- This inspection is reconstituted human anatomy as cross section and 3D stereopsis based on re-organizing with the gap of absorbance through penetration of **X-ray**. (inspection-time: about 20~30 minutes)
-
